

Shrijith P.S

Software Test Engineer

Experienced QA engineer with four years of experience, specializing in Manual Testing (HR and hardware) and two years in Automation Testing. Passionate about continuous learning, problem solving and ensuring seamless, high-quality, defect-free software. Skilled in Core Java, Python, Selenium, Cypress, Playwright and designing comprehensive test scenarios to enhance software quality and reliability.

Work History

2024-08 -
Current

Quality Engineer

Talview

- Developed small user stories and implemented UI features using React for a lightweight project
- Fixed frontend bugs to enhance functionality and ensure a smooth user experience
- Integrated Mixpanel events to track user interactions and support product analytics
- Performed regression and sanity tests to ensure software stability and reliability throughout development.
- Designed, documented, and maintained functional test cases, test data, validation protocols, and automation scripts, ensuring comprehensive test coverage
- Mentored QA interns, equipping them with essential skills in testing methodologies, techniques, and tools
- Optimized bug tracking & documentation using GitHub, improving team collaboration and issue resolution efficiency
- Developed automation scripts using Selenium WebDriver and Playwright
- Independently conducted test execution and reporting, ensuring seamless quality assurance throughout development

Skills

- Core Java
- Python
- Selenium
- Cypress
- Playwright
- API testing
- BDD
- Automation testing
- Defect monitoring
- STLC
- Test reporting
- HTML Basics
- CSS Basics
- JavaScript Basics

- Collaborated with cross-functional teams, proactively identifying and resolving issues while meeting strict deadlines
- Validated software updates across iOS and Android, ensuring smooth functionality on multiple platforms.

2023-03 -
2024-07

Test Engineer

Felidae Infosec Pvt Ltd

- Performed regression tests, sanity tests, smoke tests, integration tests and exploratory tests
- Demonstrated expertise in creating automated test cases for web application using Selenium WebDriver, ensuring comprehensive test coverage and accurate results
- Adding helper methods for framework whenever required
- Wrote test cases to maximize coverage using BDD approach
- Developed test cases based on business requirements and user stories
- Performed peer review of test cases
- Conducted performance testing using JMeter for benchmarking
- Active participation in daily stand-up calls and review meetings
- Updated regression suite regularly to eliminate pesticide paradox

2021-02 -
2023-02

Associate Software Engineer

Microgenesis TechSoft Pvt. Ltd, Bengaluru

- Responsible for automating test cases using TestComplete
- Been a part of a fully agile oriented Project, working in all phases of STLC as Functional Tester
- Responsible for testing Desktop and iOS application
- Bug reporting and tracking using JIRA
- Responsible for execution of complete regression suite and reporting
- Ensured verification documents are complete and are stored appropriately

Software

- Sentry
- Postman
- JIRA
- TestRail
- Notion
- JMeter
- TestNG
- Maven
- Rest Assured
- Git
- Cucumber
- Eclipse
- PyCharm
- Windchill
- TestComplete
- Sentry
- Retool

Education

2015-08 - 2019-07	Bachelor's: Electronics and Communication Engineering Vivekananda College of Engineering and Technology - Puttur, Karnataka
2013-07 - 2015-07	Pre-University: PCME Vivekananda Pre-University College - Puttur, Karnataka
2010-06 - 2013-05	High School Shri Rajarajeshwari School - Cherambane, Madikeri

Accomplishments

- Outstanding Performance award (Q3 2021 – 22)
- Spot award (Q2 2022-23)
- Spot award (Q4 2023) for customer-centric approach, adaptability to product changes and proactive support
- Spot award (Q1 2024) for initiating test rail tracking for weekly releases
- Engineering Champion (Q2 2024) for feature testing, issue identification, and ensuring smooth, bug-free releases
- Spot award (Q4 2024) for delivering features to customers with minimal issues

Certifications

- Cypress – Modern Automation Testing from Scratch + Framework
- Playwright – Web Automation Testing from Zero to Hero

Soft Skills

- Adaptability
- Quick Learner
- Teamwork
- Time Management
- Attention To Detail
- Growth Mindset
- Accountability
